## 'How To Become A Successful Car Broker', A Proven and Unique Vehicle Sourcing Business Opportunity... With A Comprehensive Package On How To Profit From The £123.5 Billion U.K. Vehicle Market."

Hello and welcome...

My name is Garry Steele and I have spent many years building a successful car broking / vehicle sourcing business. Now I'm in a position to share the innermost secrets of this opportunity with people like you who have **a real passion for making money!**

Car Broking is a proven vehicle sourcing business opportunity. The business concept is all about identifying & sourcing used cars from private individuals who are looking to sell, and finding buyers for these vehicles within the motor trade.

And even if you know nothing about cars – we'll show you everything you need to learn about this opportunity - so that you can earn **£500 - £1,000 per week**, part time, and generate **a successful, rewarding and sustainable income!**

Dealers throughout the country need to source cars every day for their business. It's their 'bread and butter'. And every day there are thousands of used cars out there that their owners are trying to sell, and they can't find a private buyer - but they need to sell it and they have to find a buyer somehow!

### How YOU Can Benefit from The UK's Used Car Market...

It's simple really. The success in any business can be broken down into 3 easy steps:

1. Find a hungry market eager for a certain product or service
2. Give them exactly what they want on a plate.. efficiently, professionally and quickly
3. Watch as your business grows and you reap the rewards of that success

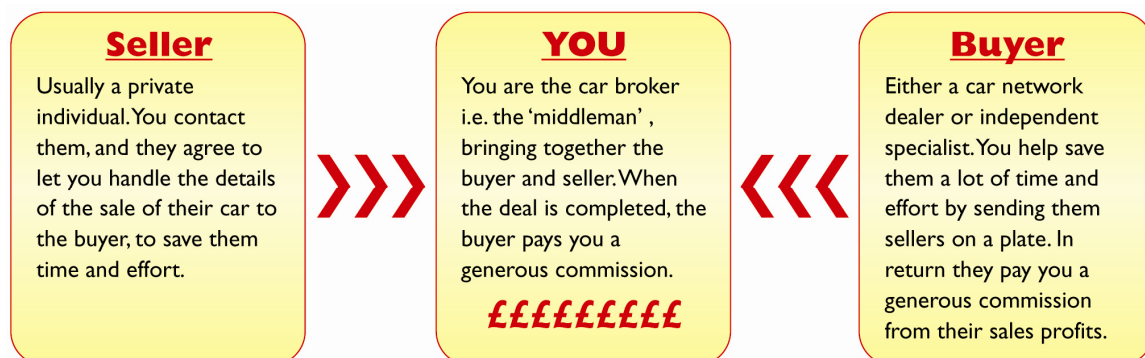

Bringing it all down to basics, this really is you cashing in on the UK's obsession with motor cars and working with sellers who can't find a private buyer for their car, and working with buyers in the trade who can't find all the cars they need.

Whatever anyone else might tell you, there's no way that dealers can find all the good deals that are around. They simply don't have the time. They can't do it all themselves and that is why they will happily pay you good money (your commission) to help them source the cars they need, either for stock or to help fulfil particular customer's requirements.

In return, you (as a car broker) provide these companies with a much-needed and valuable service, as main agents and dealers are constantly on the lookout for quality vehicles to satisfy their insatiable demands.

Source these vehicles for them – by putting the buyers in touch with sellers – and you stand to make a significant income.

### Here's a quick re-cap of how car broking works...

Just remember, dealers are always in need of stock, and they usually get this from three sources:

1. Auctions
2. Trade ins
3. Other dealers

But if they can find someone who can source them good quality used cars of the right specification, colour, mileage, owners, condition etc that will sell well off their forecourts, then they will be happy to pay you a good commission to help them obtain these.

And we go into all of this in great depth and show you exactly how to go about this!!

The **“How To Become A Successful Car Broker”** book will show you exactly what you have to do and provides you with a very detailed understanding of the marketplace and how to get your business up and running and profitable quickly, efficiently and with the minimum of effort.

## What can I offer?

With the benefits of working from home, whether you want to work part-time or full-time, this is a genuine, ethical and proven business opportunity with the realistic potential for you to generate a rewarding and sustainable income, with little or no start-up costs and minimal on-going costs.

Your risk is small and you do not have to invest thousands of pounds to see if it's going to work or if it's right for you.

A comprehensive full colour book and CD provides you with all the information you need to be successful in this business.

## What you can expect

Many people think that it is impossible to start their own part-time or full-time business, as they don't know how or where to start. With our opportunity, we show you exactly how to set yourself up, and more importantly we give you all the information about where to go and what to do, and cover absolutely everything you need to know.

Then we go into the details of what this business opportunity is all about – what's involved in sourcing cars, how you find sellers, how you find buyers, how you make the sale happen, and what commission you can charge.

Indeed, **five years business knowledge** and all our 'insider secrets', together with **over 15,000 man hours** have gone into the content of **“How To Become A Successful Car Broker”** which covers everything you need to know about setting up and running your business 'day-to-day', together with additional **FREE** bonuses to help you, as well as providing numerous sample forms, documentation and templates to help you get 'up and running' as quickly as possible without having to design any of this documentation yourself, or having to 're-invent the wheel'.

Everything we have done is geared to making you successful in the shortest possible timeframe.

## What would be expected of you?

What we have tried to do with this business opportunity is provide you with as much detailed information as possible, regardless of whether you intend setting yourself up in business, or whether you just want to deal with the odd car now and again on a part time basis.

Because perhaps you're not looking to run a business – but would just like to know a bit more about what's involved in buying and selling cars, either privately or through the trade, and how to get more money for the car you're selling, or pay less for the car you're buying!

So you have the choice – run this business part-time or full-time, start small or be a business builder from day one - it's up to you. But whatever you decide to do, the basic principles of how to achieve success are exactly the same because if you are self-motivated, have the right commitment and apply the same methodologies that we will show you for how to source the right cars and how to find buyers for those cars, then you will succeed.

## What will you also receive?

You'll also receive the following... completely **FREE** of charge:

### **FREE BONUS #1 – “Car Broking A-Z of Forms and Documentation”**
